

2027秋入学 Application Form(AF)の改定について

【重要】

マッチング対象プログラムにおいては、候補者の研究内容にマッチした大学の選出を通じてマッチング率を向上させるため、以下の2点を導入しております。

- ①大学が指定した研究分野コード及び分科コードの追加(大学リストの C 列、D 列)
- ②各主管部における出願推奨大学・受入対象大学の選定

これを受け、AF におけるマッチング希望大学の選定時(入力時)に各プログラムの大学リストと連動させ、かつ候補者が分科コードを入力することにより、候補者自身の研究分野に合致した大学(研究科)を選べるよう設定しました。

志願先については、ABE イニシアティブと SDGs グローバルリーダー(アフリカ)は第 2 志望まで、アフリカ地域以外の SDGs グローバルリーダーは第 3 志望まで選択可能です。

【大学リスト: 大学が指定した研究分野コード及び分科コード(C 列、D 列)】

分科コード(Section code)の選出

「List of research fields」で候補者自身の研究テーマと最も合致する分科コード(Section code)をひとつ選出します。

***ここでコードの選出を誤ると、研究テーマと違う志願先(大学・研究科)を選ぶ可能性がありますので、慎重に調べてください。**

選出の際、研究分野(Research field)から選択する方法が一般的ですが、研究内容の細目が記載された「Subsection」からも検索することができます。

Subsection では、研究に関わる**キーワード**を入力してください。

List of research fields

The purpose of specifying a research field code is to make it easier for you to understand and to help you choose the university of your choice (to avoid mismatches).

Please search for your research in **Subsection, etc.**, select the section code that you think is most appropriate, and enter it in Annex 1.

Research field code (optional) 研究分野コード	Research field	Section code (mandatory) 分科コード	Research section	Subsection
A7	Economics, business administration	7010	Economic theory-related	Microeconomics, Macroeconomics, Game theory, Behavioral economics, Experimental economics, Economic theory, Evolutionary economics, Economic institutions, Economic systems, etc.
A7	Economics, business administration	7020	Economic doctrines and economic thought-related	Economic doctrines, Economic thought, Social thought, Economic philosophy, etc.
A7	Economics, business administration	7030	Economic statistics-related	Statistical system, Statistical research, Economic statistics, Big data, Econometrics, Financial econometrics, etc.
A7	Economics, business administration	7040	Economic policy-related	Economic policy, Industrial organization, International economics, Development economics, Environmental and resource economics, Japanese economy, Regional economy, Urban economics, Transportation economics, Spatial economics, etc.
A7	Economics, business administration	7050	Public economics and labor economics-related	Public finance, Public economics, Health economics, Labor economics, Social security, Education economics, Law and economics, Political economy, Demography, etc.
A7	Economics, business administration	7060	Money and finance-related	Monetary economics, Finance, International finance, Corporate finance, Financial engineering, Insurance, etc.

【Application Form への入力】

1)シート「Annex.1 DeclarationDesired」に選出した分科コード(Section code)を入力すると、研究分野や細目が自動表示されます。(例:6010 を入力)

Your Research:		A6 Political science
Section Code	6010	Politics-related Political theory, History of political thought, Political history, Political process, Political participation, Political economy, Public administration, Local government, Comparative politics, Public policy, etc.

※Excelの「数式」タブの「計算方法の設定」が「手動」になっていると自動表示されないことがありますので、反映されない場合はご確認のうえ「自動」を選択してください。

2)分科コードを入力すると、同シートの右側(AN 列以降)に、入力した分科コードに合致する研究科が参考としてピックアップされます。基本的にこの中からマッチング希望大学を選ぶことでミスマッチを防げます。ただし、分科コードを指定していない研究科はこの表に表示されないため、候補者が研究科を選ぶ際は、[大学リスト](#)をよく確認の上ご決定ください。

Substantial Correlation: The selected section codes (details related to the field of study) are included in those specified by the university and show a tendency to be highly correlated.
Moderate Correlation : There is a correlation between your research topic and the university's research area, but it is a broad correlation. Please check the Graduate School information carefully.
Need to be verified : The university does not specify a research field code, so please check the website carefully to make sure your research matches.
Low Correlation: Your research topic may not correlate well with the university's field of study. We recommend that you reconsider your choice of institution.

Revision of Application Form (AF) for Fall 2027 Admission

[Important]

In order to improve the matching rate through the selection of universities that match the candidate's research content, the following two points have been introduced for the Pre-Matching Program.

- (1) Addition of research field codes and section codes specified by universities from the University Information (Columns C and D in the University Information)
- (2) Selection of universities recommended for application and acceptance in each Project Management Departments

In response to this, when selecting (entering) universities for matching in the AF, we have linked the university list for each program and set it up so that candidates can select universities (graduate schools) that match their own research fields by entering their department codes.

Please note that applicants may select up to two preferred universities /programs for ABE initiative and SDGs Global Leader (Africa), and up to three preferred universities/programs for SDGs Global Leader in regions other than Africa.

[Procedure for making this in the AF]

1. Election of Section code

Select one section code that best matches the candidate's research topic in the "List of research fields."

*If candidates make a mistake in selecting a section code here, they may select a university or graduate school that does not match their research topic, so please check carefully.

When selecting a code, the most common method is to select a research field, but candidates can also search by "subsection," which describes the specifics of the research.

In Subsection, enter keywords related to your research.

List of research fields

The purpose of specifying a research field code is to make it easier for you to understand and to help you choose the university of your choice (to avoid mismatches).

Please search for your research in **Subsection, etc.**, select the section code that you think is most appropriate, and enter it in **Annex 1**.

For example, search for "Development" in "Subsection".

Various fields will appear, allowing candidates to search for their research from multiple perspectives.

2. Fill in the Application Form

1) Enter the Section code which the candidate was selected on the sheet “Annex.1 Declaration Desired” sheet and the research field and subdivision will automatically appear. (Example: Enter 6010)

Your Research:		A6 Political science
Section Code	6010	Politics-related Political theory, History of political thought, Political history, Political process, Political participation, Political economy, Public administration, Local government, Comparative politics, Public policy, etc.

*If **Calculation Options** under the **Formulas** tab in Excel is set to **Manual**, calculations and updates may not be reflected automatically. If the expected data is not displayed, please verify the setting and change it to **Automatic**.

2) After entering the section code, the graduate schools that match the section code will be picked up on the right side of the sheet (column AN and after) as reference. Basically, you can prevent mismatches by selecting the university you wish to be matched with from this list. However, since graduate schools that do not specify a section code are not displayed in this table, candidates are advised to check [the University Information](#) carefully before selecting a graduate school.

4) The degree of match between the candidate's research topic and the university's research field is classified into the following four categories. In principle, a candidate is not considered to be a low correlation if one of the field and Section codes specified by the university and the Section code selected by the candidate match.

Substantial Correlation: The selected section codes (details related to the field of study) are included in those specified by the university and show a tendency to be highly correlated.
Moderate Correlation : There is a correlation between your research topic and the university's research area, but it is a broad correlation. Please check the Graduate School information carefully.
