

**INTERNATIONAL CAPACITY DEVELOPMENT PROGRAMME ON
MANAGEMENT FOR SCHOOL LEADERS (CDPMSL)**

20 May – 2 June 2026

AIM

This comprehensive two-weeks capacity development programme is specifically designed for school leaders who were actively engaged in school management, and policy implementation at grassroot levels. The programme will enable the school leaders to keep abreast of recent developments in the field of school planning and management taking place in the world of education. The programme also shares information and experiences with other participating countries and explores possibilities for adapting innovations and changes which have been implemented and are successful.

OBJECTIVES

The programme objectives broadly aim at sharing experiences in the field of school planning and management among the participants with a view to:

- Keep pace with the changing scenario of the approaches to data-driven policy development, stakeholder engagement and effective implementation of strategies.
- Share with the participants modern organizational management principles, resource optimization and institutional development.
- To exhibit contemporary approaches to monitoring, evaluation, and continuous improvement processes with a special look at educational mechanisms that dealt with these ideas in a comparative context.
